

Verismo Networks Showcases Globally Deployed Broadband TV Solutions at IBC Amsterdam

*Verismo's End-to-End Solution Provides Rapid Footprint Expansion for International
ISPs, OTT, IPTV and Telco Service Providers at Low Cost*

Amsterdam, Netherlands, September 6, 2011 –[Verismo Networks](#) is showcasing its award-winning Broadband TV solution at the IBC conference, September 9-13 in Amsterdam, Netherlands in the Connected World IPTV zone area in Hall 13 at stand 354. Deployed in over 120 countries, Verismo provides a proven open platform that numerous service providers have used to innovate, differentiate and deliver compelling entertainment services over broadband and quickly expand their global footprint.

“We are excited to demonstrate our leading solution to the European market at IBC. As a one-stop solutions provider, our cloud-based managed services and advanced customer premise equipment continue to lead broadband TV service delivery and adoption around the world.” said Dhaval Ajmera, Executive Vice President at [Verismo Networks](#).

The Verismo Networks' cloud-based managed services and advanced customer premise equipment provide a powerful combination for any service provider. The multi-service platform has been globally deployed over the internet in over 120 countries.

Verismo Networks cloud-based managed services include:

- Meta data aggregation
- Set-top Box & User Management
- Content & Channel Management
- Geo Targeting
- Subscription & Billing
- DRM configuration
- User Interface Management
- Network Monitoring
- Analytics
- Advertising
- XML API for multi-screen delivery
- 24/7 customer support & Network Operation Center
- Multiple POPs in USA, Europe, Asia and CDN support across the world

The Verismo Networks advanced IP set-top box includes:

- Full HD 1080p Multi-format media player
- Live TV, OTT and Video-on-demand
- TV friendly UI with EPG mode
- DVR for Time-shifted viewing
- Advanced codecs, DRM & encryption support
- Adaptive Streaming (HLS)
- HTML5 Browser for Internet Apps
- Unicast or Multi-cast (IGMP v2/3)
- Home Media (DLNA server or USB)
- Wired & Wireless Connectivity (Ethernet, 802.11n Wi-Fi or 3G)
- Stylish, compact design

The Verismo Media Gateway is a whole home solution that enables triple play services on top of the set-top box features:

- Whole House DVR
- Multi room streaming with Verismo or third party clients
- Home networking integration options (MoCA or other)
- Triple Play services - video, voice (VoIP) and data router functionality.
- Dual Broadcast tuners (DVB or ATSC)
- Integrated 802.11n Wi-Fi
- Integrated HDD for DVR
